

	<p><b>WBL Competency 7: Self Awareness and Development</b>  <b>Outcome 7.2 – Understand the limitations of your professional skills and knowledge</b>  <i>(To be evidenced <b>once</b>.)</i></p>
<p><b>Probate Practice Rights Outcome</b></p>	<p><b>Evidence Guidance:</b>                  To meet this Outcome you will need to show that you can identify your limitations to undertake a particular task and take action to remedy that situation. For example, perhaps you have had to deal with a matter where, due to lack of knowledge or experience you have had to ask for assistance from someone else with more experience than you, or perhaps you have had to refer a matter to someone else because you did not have the skills to deal with it.</p> <p>Within your logbook sheet you should explain the limitation and how you addressed it. You should also provide evidence of how you addressed the limitation (e.g. record of seeking guidance from a colleague or memo to a colleague delegating the work).</p>
