<p><b>LSB Feedback August 2017: Learnings/Challenges</b></p> <p>CR reported it considers it too early to tell at this stage if there are any challenges/barriers that will prevent it from achieving progress against the outcomes. However, while it is still building upon the diversity profile of its regulated community to inform policy development, it has started to direct efforts where it knows anecdotally that issues exist.</p> <p>Although still developing an understanding of its diversity profile, we consider it positive that CILEx Regulation has taken efforts to address issues identified through its regulatory and operational processes. We would encourage CILEx Regulation to continue to rely on evidence from a number of sources in order to identify areas which could benefit from greater attention.</p>
