| Purpose            | This report provides the Board with a review of possible metrics    |  |
|                    | which can be associated with the LSB's regulatory performance       |  |
|                    | assessment criteria.  |  |
|                    | It also provides a proposal for the next stage of the KPI review on |  |
|                    | operational performance reporting at CRL.                           |  |
| Recommendation     | To <b>DISCUSS</b> the proposals in the report.                      |  |

### Background

- 1. At its February meeting, the Board requested that CRL review the LSB Sourcebook which supports the revised Regulatory Performance Assessment of frontline regulators and identify Key Performance Indicators (KPIs) that could be used by the Board to provide 'at a glance' assurance of CRL's compliance, as well as enabling the Board to identify areas that may require attention.
- 2. This paper provides proposals to meet this request and at the same time, CRL has taken the opportunity to review its operational KPIs and to propose revisions for future reporting.

### **Operational KPIs**

- 3. At the February Board meeting, it was agreed that the Balanced Scorecard performance data presented within a lengthy spreadsheet would be reformatted and simplified.
- 4. Agreed key data is now reported as part of the CEO Report.

- 5. The data remaining from the original spreadsheet has been reviewed, and revised KPIs for operational performance have been proposed. These will form part of the Director of Operations' Report from the July Board meeting.
- 6. The proposals are set out in the tables below.

Note, blue shading indicates this data is provided in the CEO report and grey shading indicates that the data will be removed from Board reporting, although it will in many cases be monitored at executive level, with reporting by exception if required. The white boxes indicate KPIs which will be reported to the Board for each operational area within the Director of Operations' report.
